# WARNING!!!

CONTENTS ARE FRAGILE
HANDLE WITH CARE

The metal frame and crystal components of this chandelier are very delicate. Please have extreme caution when unpacking and installing.

# WARNING!!!

After passing the main electrical wire through the 10mm pipe and connecting the pipe to the top main body connector, place all remaining pieces as shown in numerical order and in the orientation depicted. Refer to the parts list to avoid confusion between parts.

## CAUTION

1. Rated 110v-130v/60Hz, bulb E12/40W maximum.
2. Take care to avoid damage to the surface of lighting and wire. Wearing gloves is recommended when installing.
3. Connect black or red wire of the lighting to the white or blue wire. Then connect to the neutral wire and double colored (or bare copper) wire to the ground wire.
4. Never install lighting on damp ceiling. The room should be dry and well ventilated.
5. Keep lighting away from acid, alkali, and other corrosive chemical or gas. Clean with soft cloth only.
6. Installation must be carried out by qualified electrician only.
7. Disconnect the power before installing, cleaning, or replacing the lamp.
8. Never cover the lighting when power is connected.
9. Fixture must be secured when installing the ceiling tube, chain, pipe, and other connecting parts.
10. Take care to avoid damage when installing glass parts.
11. All electrical components must be installed by a licensed electrician and in accordance with the National Electrical Code. It must be in the appropriate local electrical codes. Make sure that the electrical supply to the chandelier is turned off at the main fuse or circuit breaker before doing any installation. Worldwide lighting is not responsible for unprofessional wiring.
